WEATHER FORECASTS FOR 31 DECEMBER 1949 - 24 JANUARY 1950

(Compiled by State Hydrological and Meteorological Institute, Krakow. All temperatures in centigrade.)

31 DECEMBER -- Dziennik Polski, No 359, 31 Dec 49

For southern Poland, considerable cloudiness and local fog with possible snow. Temperature in the hills during the day will be around zero, during the night as low as -5; in the mountains from -3 to -10. Prevailing light north-westerly winds.

1 JANUARY -- Dziennik Polski, No 1, 1 Jan 50

For southern Poland, considerable cloudiness with intermittent snow, slight local fog. Temperature in the hills during the day will be -8 to -10; during the night it will drop to -20. In the mountains, temperature during the day around -12, during the night, as low as -26. Moderate northeasterly winds.

9 JANUARY -- Dziennik Polski, No 8, 9 Jan 50

For southern Poland, considerable cloudiness with intermittent rain or rain with snow. Snow in the mountains. Temperature in the hills during the day will range to 30; during the night, as low as -50. Temperature in the mountains, from -5 to 12. Moderate westerly winds, occasionally strong.

10 JANUARY -- Dziennik Polski, No 9, 10 Jan 50

For southern Poland, continuous cloudiness and fogginess, with possible light rain or sleet in the hills and snow in the mountains. Temperature in southwestern Poland during the day will be from zero to 3; in the Wisla valley and in Podhale, around -4; in the mountains, as low as -7. Temperature during the night in the hills will be about zero; in the mountains, around -10. Light variable winds.

50X1-HUM

The following mountains are covered with heavy snow (in centimeters):
 Babia Gora 64, Cieszyn 7, Kasprowy Wierch 175, Hala Gasienicowa 50, Klimczak
 83, Krynica 38, Zakopane 28, Zwardon 42, Rabka 24, Nowy Targ 16, Obidowa 36.

11 JANUARY -- Dziennik Polski, No 10, 11 Jan 50

For southern Poland, variable cloudiness and local fog. Temperature in the hills during the day will be from 2 to 4; during the night, around zero. Slight frost locally. Temperature in the mountains will range from zero to -8. Moderate westerly winds.

Warning! Possible avalanches in the mountains.

12 JANUARY -- Dziennik Polski, No 11, 12 Jan 50

For southern Poland, prevailing fair weather and frost; local fog. Temperature in the hills during the day will be as low as -8; during the night, as low as -15; in the mountains, from -10 to -20. Prevailing light north-easterly winds.

The following mountains are covered with heavy snow (in centimeters):
 Kasprowy Wierch 180, Hala Gasienicowa 55, Zakopane 15, Krynica 28, Obidowa 30, Wisla 20.

13 JANUARY -- Dziennik Polski, No 12, 13 Jan 50

For southern Poland, variable cloudiness and frost with snow in Slask and in the Sudety area. Temperature in the hills during the day will be from -3 in the west to -20 in the east; during the night, from -10 in the west to -30 in the east. Moderate easterly winds.

The following mountains are covered with snow (in centimeters): Kasprowy Wierch 165, Hala Gasienicowa 54, Morskie Oko 160, Zakopane 15, Krynica 27, Wisla 20.

14 JANUARY -- Dziennik Polski, No 13, 14 Jan 50

For southern Poland, fair with gradually increasing cloudiness from the west. Temperature in the hills during the day will be from -8 to -12; during the night, around -20. Gradually warmer. Prevailing light, occasionally moderate, southeasterly and south winds turning westerly and northwesterly.

15 JANUARY -- Dziennik Polski, No 14, 15 Jan 50

For southern Poland, considerable cloudiness and foginess. Local intermittent rain or snow with rain. Temperature in Slask during the day will be from 4 to -2; during the night, as low as -6. In the rest of southern Poland the temperature during the day will range from zero to -6; during the night, as low as -10; in the mountains, from -8 to -17. Moderate westerly and northwesterly winds.

16 JANUARY -- Dziennik Polski, No 15, 16 Jan 50

For southern Poland, considerable cloudiness, local fog, and possible scattered showers. Temperature in the hills during the day will be up to 5; during the night, from zero to -3. High in the mountains the temperature will vary from -3 to -8. Prevailing moderate westerly winds.

18 JANUARY -- Dziennik Polski, No 17, 18 Jan 50

For southern Poland, considerable cloudiness, with light rain and snow with rain. Snow in the mountains. Temperature in the hills during the day will be zero to 2; during the night, around zero, with local frost. The temperature in the mountains will range from -3 to -8. Moderate westerly winds.

19 JANUARY - Dziennik Polski, No 18, 19 Jan 50

For southern Poland, mostly considerable cloudiness with intermittent snow or snow with rain. Temperature in the hills during the day will be around zero; during the night, as low as -4; in the mountains, from -6 to -12. Light variable winds. It is expected that a change to northeast winds will bring a wave of frost.

21 JANUARY -- Dziennik Polski, No 20, 21 Jan 50

For southern Poland, considerable cloudiness with intermittent snow. The temperature in the hills during the day will be from 6 to -12; during the night, as low as -15; in the mountains, inversion of vertical temperature gradient. Moderate easterly winds.

22 JANUARY -- Dziennik Polski, No 21, 22 Jan 50

For southern Poland, variable cloudiness; in the eastern parts of the country, possible light snow during the night. The temperature in the hills during the day will be around -8; during the night, as low as -14; in the mountains, inversion of vertical temperature gradient. Moderate easterly winds.

23 JANUARY -- Dziennik Polski, No 22, 23 Jan 50

For southern Poland, considerable cloudiness with snow. The temperature during the day will be from 2 to -3; during the night, from -3 to -7; in the mountains the temperature will range from -5 to 10. Prevailing light north and northeasterly winds.

24 JANUARY -- Dziennik Polski, No 23, 24 Jan 50

For southern Poland, considerable cloudiness with light snow. Beginning with the eastern parts of the country, the weather will gradually improve during the day. The temperature during the day will be from -2 to -5. The temperature in the mountains will range from -6 to -20. Light northeasterly and easterly winds.
